

## **WILLIAM — HOW TO MAKE FRIENDS WITH A SNAIL**

*A fun standalone monologue for performance.*

How to make friends with a snail. A guide by William the Snail Whisperer McGee.

If you find yourself on the street, without a friend in sight.

Look for a silver trail, shimmering in the light.

It's a tell tail sign of a slimey friend to be.

Snails make the best of friends. Trust me.

I'm William the Snail Whisperer McGee.

Follow the line until its end

And discover your tiny little friend

A lettuce leaf is all it will take

To convince a snail to be your mate.

Iceberg, spinach or even cos

Lettuce is lettuce to a snail's snoz

Trust me. I'm William the Snail Whisperer McGee.

Share a salad and be on your way

Because your new snail mate has a busy day!

He has his house on his back

And sites to see.

So pick up your slacks

And get home for tea!

That's how to make friends with a snail.

A guide by me: William the Snail Whisperer McGee.
