

STARBURST CANDY

There's a new product hitting the candy shelf this season.

It comes in different colors with real fruit juice flavor like strawberry, cherry, orange, and berries.

It tastes so good we don't want to eat real food any more.

My parents say it can hurt my teeth, (smiles)

I really don't think so, see? I still have all my teeth

(loud) "I LOVE MY STARBURST CANDY"
